RE: REVISION TO AMENDED NOTICE OF INTENT - (ACT/017/001 and ACT/017/017)

Dear Tom:

Additional, updated geologic information was obtained after the May 11, 1982 amendment to the Notice of Intent was submitted. Therefore, changes have been made in the location of some of the proposed drill holes. The locations of some of the proposed roads were also changed because of topography or because existing roads provided better access (less surface disturbance). The changes are shown on the enclosed map.

The enclosed map is of a proprietary nature. Please consider it as confidential.

Sincerely,

Fred W. Gerdeman
Governmental Affairs Supervisor
